Developed on 6.96 acres of freehold land, Mansion Park is a low-density residence, offering just 72 units of 3-storey Signature Villas. With built-up areas ranging from 4,085 to 5,363sq ft, Mansion Park villas come with 5+1 bedrooms, including a dual master bedroom as well as a 20ft linear garden at the backyard, making them the ideal home choice for those seeking to forge closer family ties.

Besides that, each villa features an innovative design, incorporating a ceiling height of 13ft and large floor-to-ceiling windows, thus enhancing the feeling of spaciousness and maximising the use of natural lighting.

"At Country Heights, we know that there is much joy in living with family and sharing in each other's lives. However, choices are limited for big families who not only want to live together, but also seek a luxurious and quality lifestyle. As such, Mansion Park focuses on the generational living concept where different generations can live together in the same home, without compromising on life's luxuries such as comfortable living spaces amid lush landscape set within the green belt in Cyberjaya," said [Dianna Lee](#) the group CEO of Country Heights.

Accessibility is also a key feature at Mansion Park, as the residence is connected by major highways including the South Klang Valley Expressway (SKVE), [Maju Expressway](#) (MEX), North South Expressway Central Link (Elite), Lebuhraya Damansara Puchong (LDP) and Kuala Lumpur-Seremban Highway ([PLUS](#)).
