MALAYSIAN INSTITUTE OF ARCHITECTS

kdn no: pp 1022/03/2010(025751)

www.pam.org.my

World Day of Architecture

World Day of Architecture is celebrated worldwide on the first Monday of October. This year is the 2nd year PAM is celebrating this special occasion. Last year PAM organised an exhibition at PAM Centre to mark the occasion and I was personally involved in the organising of this exhibition but unfortunately was not able to attend the officiating ceremony as I was recuperating at St. Vincent Hospital, Melbourne, Australia.

This year the theme is 'Architecture and Human Rights'. The theme invites reflection and action and raises a series of questions on the part of architects worldwide.

'Human Rights' covers a wide spectrum and one such area that is often forgotten is the basic human right to have access to a shelter or a home.

As architects, we are obligated to look into the matter. We must work on this issue at all levels. In our country today, housing and house ownership are still issues that need national focus.

The government has come up with the National Housing Policy and PR1MA (Perumahan Rakyat 1 Malaysia) but unfortunately the professionals' roles including those of the architect's are not defined clearly. PR1MA's objective is to look into providing affordable housing which does not necessarily mean low-cost housing. PAM will look further into the matter to seriously address this.

Issues on affordable housing are always being debated. Who should be looking into it, the government or private sectors? Is the price right? Is the built up area sufficient? And so forth.

In terms of design and space requirement, PAM can assist the government and the relevant bodies to organise a competition to identify the best solution.

PAM can even work or collaborate with other bodies such as CIDB and Jabatan Perumahan Negara to establish building designs using the IBS system. If proven successful, this will spur the production of IBS components nationwide and encourage its acceptance as a component of the Green Building requirement.

PAM as the national institute for architects shall support and assist the government and all related bodies to help resolve these issues on housing since it is the basic right of every individual to own and have a shelter.

Ar Saifuddin Ahmad, PAM President

1 March 2012

Kindly note that the scheduled events above are subject to change. Please call PAM at **03-2693 4182** for confirmation.

WORLD DAY OF ARCHITECTURE

The first Monday of October each year is World Architecture Day, as sanctioned by the International Union of Architects (UIA); with the aim of promoting good architecture, raising public awareness about the role of architects and architectural firms in the locality and to serve as a meeting point for members and potential members.

To celebrate World Architecture Day 2011, with the theme "Architecture and Human Rights", the national PAM Secretariat in Kuala Lumpur, PAM Southern Chapter and PAM Sarawak Chapter respectively organised architectural installations at selected public spaces in their respective cities.

In Kuala Lumpur, the "World Day of Architecture" opening ceremony was held on 3 October 2011 at PAM Centre, Kuala Lumpur and officiated by Dato' Sri Ar Haji Esa Mohamed, UIA Vice President Region IV. There were three sculptures displayed from 3 to 18 October 2011, constructed by 21 students from International Islamic University Malaysia, University Putra Malaysia, University Teknologi MARA, International University College Twintech, Kuala Lumpur University Metropolitan College and Tunku Abdul Rahman College.

In Johor Bahru, the PAM Southern Chapter's architectural installation was located at Plaza Art Align Johor Bahru, Johor and officiated by Tuan Haji Ismail bin Haji Abdul Rahman, Secretary of Johor Bahru City Council. The PAM Southern Chapter, in collaboration with final year students from UTM's Faculty of Built Environment, organised the construction of the sculpture with the concept of "Sculpture for People".

In Kuching, PAM Sarawak Chapter commissioned an architectural installation named "Cardboard City" at The Spring. For a week, the 6 x 9 x 4 metre high structure doubled as an exhibition space for PAM activities and architectural projects. The architectural installation aimed to prompt discussion and dialogue about the basic Human Right to Housing and an Adequate Standard of Living providing decent housing for all and how this may be achieved by 'thinking outside the box' through architecture and design. The installation is built by volunteers – many of whom are architecture students. PAM Southern Chapter believes that this is an important experience for students of architecture; to build with their hands as well as their minds.

Louise Cox, UIA President 2008-2011, addressed a message to the architects of the world for the 2011 WDA:

"Retention of dignity is essential to a healthy city. We must not forget people nor lose sight of their universal rights."

"The architects must work on this issue at community and local government levels as well as on the level of large city governments. Through its programme Action without Borders, the UIA is orienting its actions and reflections towards these issues."

PAM ANNUAL ARCHITECTURE STUDENTS WORKS EXHIBITION 2011

2-9 October 2011, 1 Utama Shopping Centre, Bandar Utama, Petaling Jaya

PAM Education committee organised the 6th PAM Annual Architecture Student Works Exhibition at One Utama Shopping Center, Bandar Utama Petaling Jaya, Selangor from 02-09 October 2011, with the objective of instilling public awareness and appreciation of architecture.

The theme for this year's exhibition was "Underwater Environment" showcasing the excellent works of students from the public universities and private institutes in Malaysia. The opening ceremony was officiated by Ar Tan Pei Ing in her capacity as ARCASIA President-Elect. The exhibition displayed a total of 17 booths.

The Best Display Booth Awards were given out to the top 3 best displays. The winners were Taylors University 1st place, Politeknik Sultan Haji Ahmad Shah, 2nd Place and Universiti Teknologi Malaysia, Skudai, 3rd place.

In conjunction with the exhibition, the Committee organised "The Equilibrium Balance Competition", on 8 October 2011. The competition was opened to all architectural students from the universities and institutes participating in the exhibition. A total of 7 groups with 5 students per team entered the competition. The winners were Group C Kolej Kemahiran Tinggi MARA, Pasir Mas Kelantan and Group E from Kolej Kemahiran Tinggi MARA, Pasir Mas Kelantan won second place. Group A from International University College Technology Twintech took 3rd place.

During the exhibition, a children competition, Bausack 3D Tower Construction Competition, was also organised with the aim to expose the students to architecture. A total of 71 children participated in the competition for two days. Those who could construct the tallest tower were declared as winners receiving prizes and certificates, while other participants were given consolation prizes.

PAM also encouraged all participating schools of architecture to hold their activities to attract visitors to the exhibition. Dancing and singing concert was performed by Politeknik Port Dickson, musical chair games by City University College of Science & Technology and Kolej Kemahiran Tinggi MARA, Pasir Mas and puzzle /telematch games by ALFA International College.

During the closing ceremony, PAM gave out awards and appreciation certificates to architectural students and schools for their achievements throughout the exhibition. The list of awards and certificate include Certificate for PAM Student Volunteer Program, PAM Best Academic Awards 2011, PAM-CIS Best Student Award 2011, Certificate for Participating School and PAM Best Display Booth Awards 2011.

Tuan

PERATURAN BAGI MENGENAKAN WANG CAGARAN / DEPOSIT TERHADAP SEMUA KATEGORI PERMOHONAN YANG DIKEMUKAKAN KEPADA MAJLIS BANDARAYA IPOH

Dengan segala hormatnya perkara di atas adalah dirujukkan.

2. Sukacita dimaklumkan bahawa pihak Majlis Bandaraya Ipoh akan meluluskan satu prosidur baru yang mana akan mengenakan bayaran deposit atau cagaran terhadap semua permohonan pelan bangunan baru bagi mendapatkan kelulusan daripada Majlis Bandaraya Ipoh. Peraturan tersebut akan berkuatkuasa sepenuhnya mulai 1 November 011 dan dengan sukacitanya pihak tuan dapat memaklumkan kepada semua ahli pertubuhan tuan terhadap peraturan tersebut.

3. Bersama-sama ini disertakan satu jadual bagi kadar cagaran yang akan dikenakan untuk perhatian pihak tuan. Kerjasama pihak tuan dalam perkara ini amatlah dihargai dan didahului dengan ucapan terima kasih.

Saya yang menurut perintah,

“INOVASI MEREALISASIKAN TRANSFORMASI”

(DATO' HAJI ABD. RAHIM BIN MD. ARIFF)
Setiausaha Bandaraya

KADAR CAGARAN YANG AKAN DIKENAKAN OLEH MAJLIS BANDARAYA IPOH

CAGARAN / DEPOSIT YANG DICADANGKAN BAGI MAJLIS BANDARAYA IPOH

A. Rumah Kediaman (Sesebuah/Permohonan Pelan Kurang 5 Unit) (bagi setiap permohonan)

<u>Jumlah Fee Proses Pelan</u>	<u>Wang Cagaran</u>
RM100.00 – RM300.00	RM500.00
RM 301.00 dan ke atas	RM1,000.00

B. Rumah Kedai / Kedai Pejabat (bagi setiap permohonan)

<u>Unit</u>	<u>Wang Cagaran</u>
1 hingga 4 unit	RM1,000.00

C. Kilang (Sesebuah / Permohonan Pelan Kurang 5 Unit) (bagi setiap permohonan)

<u>Jumlah Fee Proses Pelan</u>	<u>Wang Cagaran</u>
RM500.00 dan ke bawah	RM1,000.00
RM501.00– RM1,000.00	RM1,500.00
> RM1,000.00	RM3,000.00

D. Bangunan Komersial dan Bangunan Institusi (bagi setiap permohonan)

(Contoh : Gerai, Pusat Makanan, Stesyen Minyak, Hospital, Pusat Membeli-belah, Kolej Swasta dll.)

<u>Jumlah Fee Proses Pelan</u>	<u>Wang Cagaran</u>
RM500.00 dan ke bawah	RM1,000.00
RM501.00 – RM1,000.00	RM1,500.00
RM1,001 – RM3,000.00	RM3,000.00
> RM3,000.00	RM5,000.00

E. Skim Perumahan dan Skim Komersial

i) Bangunan Kediaman

- | | |
|---|-----------------|
| a. Flat dan rumah teres kos rendah | RM50.00 seunit |
| b. Apartment sederhana ke atas dan rumah kediaman (5 unit dan ke atas) dari jenis banglo/rumah kediaman sesebuah, rumah teres kos sederhana bawah dan ke atas, rumah berkembar/ rumah berangkai (kluster) | RM100.00 seunit |

- | | |
|---|-----------------|
| <u>ii) Perusahaan</u>
(5 unit dan ke atas) | RM300.00 seunit |
|---|-----------------|

- | | |
|--|-----------------|
| <u>iii. Rumah Kedai/ Kedai Pejabat</u>
(5 unit dan ke atas) | RM200.00 seunit |
|--|-----------------|

F. Permohonan tambahan/Pindaan Kepada Bangunan Sediada **RM500.00**

Nota :

Semua permohonan di bawah kategori rumah ibadat, sekolah, stesyen janakuasa dan bangunan-bangunan yang dibina oleh badan-badan kerajaan adalah dikecualikan daripada dikenakan cagaran/deposit di atas.

A TRIBUTE TO AN ARCHITECT

FRANK LING FAH SHING, the architect who stayed true to his professional calling to do the best design he could in a challenging environment, passed away on 11th October 2011 in Kota Kinabalu. He was 52.

His wife Ivy said Fahshing died peacefully at home after battling cancer for the past year.

Born in 1959 in Kota Kinabalu, Sabah, Malaysia, Fahshing attended Chung Hwa Primary School and All Saints Secondary School, where he obtained Higher School Certificate ('A' level) in 1979.

As fate had it that his older brother Ar. Lam Choi Sing who graduated with a degree in Architecture from the University of Oregon, USA in 1976 showed him a book that changed his life. "The Master Builders" featuring Frank Lloyd Wright, Le Corbusier and Mies Van Der Rohe sparked the fire in Fahshing which he believed being an Architect was how he was going to make a difference.

He did one year at his brother's alma mater before completed his bachelor degree in Architecture in 1985 at Arizona State University, USA. After graduation, Fahshing did his practical training in Arizona and California. He passed the NCARB, USA licensing exam and was a Registered Architect in the State of California.

He returned to Kota Kinabalu, Malaysia in 1990 and worked at Akitek Design Group prior to passing PAM/LAM Part 3 exam in 1993. He was one of the founding partners in Teamconcept Architects before coming out solo to establish Fahshing Architect in 2001.

Fahshing's architectural education and experience in the U.S. strongly influenced his desire to pursue the highest quality of design. He was a man of many interests: from psychology to astrology, and philosophy to nature, and these in turn have fueled his approach to his art. His modern idols include Renzo Piano and tech innovator genius Steve Jobs. Fahshing had always believed that design is in everything that we do and use.

One of his pet projects that reflected his sense of playfulness in design is the Sabah PAM Chapter office. He named the conference room "Centre of Egg-celence", a reference to the egg shape that he had used. The conference table was designed by using small strips of teak wood on solid glass stands which highlighted the 'delicate' nature of the space.

Fahshing's love of his hometown was demonstrated in a low profile but socially important project: the Gaya Street Renewal Project, which was funded by the Danish government. He understood the importance of the integration between people, vehicular traffic and landscapes, he designed and executed these elements to coexist harmoniously. It is now the most popular street in the State of Sabah where one can feel the historical and cultural heritage of Sabah.

Fahshing was an active member of PAM as he believed architects have a professional and social responsibility in society. He was the Chairman of PAM Sabah Chapter 2001 to 2003. While performing the Chairman role, he was inspired by Dr. Ken Yeang to develop his architectural philosophy by writing a book. Architects often like cliché and Fahshing's very own is "to grow a house". The book "archiNature & a house in Borneo", co-authored by Fahshing, was published in 2003.

One of the notable projects by Fahshing is "Sinurambi", or "a jungle hut" in the local Kadazan language. In the project and the book "archiNature", he realized his destiny to be an equal with the architects of international standing. The house was featured in the book "25 Tropical Houses in Singapore and Malaysia" by Paul McGillick, published in 2006.

In the span of 10 years, his work spread from Kota Kinabalu to Kuala

ANNOUNCEMENT FROM MAJLIS PERBANDARAN PULAU PINANG ON "PELAN CADANGAN PEMAJUAN BERSAIZ AO"

Ruj. Tuan :
Ruj. Kami : Bil. (417) dlm MPPP/OSC/1124-018/SK JLD.3
Tarikh: 25 Oktober 2011

SENARAI EDARAN SEPERTI DI LAMPIRAN 1

Tuan/Puan,

PELAN CADANGAN PEMAJUAN BERSAIZ AO

Dengan hormatnya saya diarah merujuk kepada perkara di atas.

2. Adalah dimaklumkan, pelan-pelan cadangan pemajuan yang dikemukakan ke Unit OSC, sila pastikan tidak melebihi saiz AO. Sekiranya melibatkan cadangan pemajuan yang berskala besar, pihak pemohon diberi pilihan untuk mengemukakan dalam bentuk helaian. Pastikan setiap helaian pelan-pelan tersebut dikepilkan dengan kemas dan sempurna.

3. Segala perhatian dan kerjasama daripada pihak tuan adalah diperlukan.

Sekian, terima kasih.

'BERKHIDMAT UNTUK NEGARA'

Saya yang menurut perintah,

s.k : Pengarah
Jabatan Perancangan Pembangunan
Majlis Perbandaran Pulau Pinang

Lumpur and have engaging clients that appreciated his unique design talents and philosophy. The final contribution to PAM by Fahshing was a jury duty for the PAM Design Awards 2011 in Kuala Lumpur.

Fahshing was a fighter. In the final days when cancer was getting the best of him, he sketched out his last floor plan on a yellow tracing paper, took a digital picture and emailed it to his client.

As he signed off in the book: "Light is Magic, Space is Miracle".

EXECUTIVE SUMMARY OF THE MINUTES OF THE SECOND MEETING OF PAM COUNCIL 2011 – 2012

21 October 2011 Kuching, Sarawak

Council congratulated Ar Tan Pei Ing as President Elect ARCASIA and Dato' Sri Ar Haji Esa Mohamed as UIA Vice President Region 4 and newly appointed Advisory Board Member of DBKL, and thanked Ar Peter Wong and the Sarawak Chapter for hosting the meeting and making all arrangements for Council Members.

Council approved the applications for Graduate memberships (29), Student Memberships (2), Reinstatement of Graduate Memberships (4) and Ordinary Membership Above (1) recommended by Membership Committee.

PAM White Paper on Education Roundtable A workshop would be held on Monday 24 October 2011, Putrajaya and would be attended by Ar Saifuddin Ahmad, Ar Mohd Zulhemlee, Ar Boon Che Wee, Ar Ezumi harzani Ismail and Ar Wan Sofiah Wan Ishak. The white paper would be presented by Ar Boon Che Wee and Ar Mohd Zulhemlee An.

PAM Annual Architecture Student Work Exhibitions 2011 at One Utama The 6th PAM Annual Architecture Students Works Exhibitions was held from 2-9 October 2011 at One Utama Shopping Center, Bandar Utama Petaling Jaya, Selangor. The theme for this year's exhibition was "underwater environment". The exhibition was officiated by Ar Tan Pei Ing as President-elect ARCASIA.

Joint PAM – Deakin University Student Workshop & Exhibition The workshop would be held from 24 November – 5 December 2011, to be hosted by UiTM Shah Alam, Selangor.

Meeting with Ministry of Higher Education (MOHE) on Building Surveyor Act The meeting would be held on 25 October 2011, at the Ministry, to be attended by Ar Abu Zarim Abu Bakar and Ar Mohd Zulhemlee An.

Pre Discussion on CIDB Roundtable with Minister of Works to be held on 27 October 2011 and will be attended by Ar Saifuddin Ahmad and Ar Chan Seong Aun. Ar Saifuddin reported that he highlighted at the meeting for CIDB to review the composition of CIDB Board and that PAM should be represented on the CIDB Board. He also highlighted on the need of training of Clerk of Works. Ar Chan Seong Aun added that CIDB has informed that CIDB would not be taking up the eco-labeling of green products, and SIRIM would do it instead.

Architecture in Humanity sets up chapters in various regions and support any work towards charitable design needs within local community. Council agreed for a Chapter to be established in Malaysia with the two coordinators being Ar Tan Pei Ing and Ar Boon Che Wee on behalf of PAM.

Tandok Competition At the AGM it was agreed to review the competition brief and rules, and consultants were to be remunerated according to the scale of fees. In view of the D.O. Approval and additional requirements, as well as consultants' fees need to be made, council decided to review the implementation of the project.

PAM Building Council concurred that GBI and ACSB would move to another location. As for PAM Centre, the ground floor would be vacated once work needed to be done there and PAM Secretariat will move to the upper floor.

Décor Profile

Putrajaya International Convention Centre
85,000 m² of Sarnafil roofing membranes
 Main roof: 25,000 m², Garden terrace: 60,000 m²

Sika Group

Sika is a Swiss-based company globally active in specialty chemicals since 1910. Sika supplies the construction and manufacturing industries (vehicles, appliances and building components). Sika is a leader in processing materials used in sealing, bonding, damping, reinforcing and protecting load-bearing structures. Sika product range features high-quality concrete admixtures, specialty mortars, sealants and adhesives, damping and reinforcing materials, structural strengthening systems, industrial flooring as well as roofing and waterproofing systems. Subsidiaries in more than 70 countries worldwide and approximately 12,500 employees link customers directly to Sika and ensure the success of all our partners. Sika achieves annual sales of US\$ 4.4 billion.

Sika Sarnafil PVC membrane roofing systems

Sika Sarnafil

Sika Sarnafil is a single-ply commercial roofing and waterproofing manufacturer with 45 years of history. Sika Sarnafil systems, products and services, are designed to precisely fit your specific projects needs. With more than 1.5 billion m² of PVC and TPO membranes installed all over the world, on buildings of all types and in many diverse climates, Sika Sarnafil is the worldwide market leader in thermoplastic membrane technology. We set the bar for quality when it comes to watertight protection. Sika Sarnafil is redefining sustainability with environmentally sensitive products that deliver higher ROI while helping owners achieve sustainability goals – energy efficiency roof, greenhouse gas reduction and waste minimization.
